Google Slides makes your ideas shine with a variety of presentation themes, hundreds of fonts, embedded video, animations, and more. All for free.

What is GridSim?

The GridSim toolkit allows modeling and simulation of entities in parallel and distributed computing (PDC) systems-users, applications, resources, and resource brokers (schedulers) for design and evaluation of scheduling algorithms. ... incorporates failures of Grid resources during runtime.

What is Processing Element in GridSim?

GridSim PE (Processing Element) class represents CPU unit, defined in terms of Millions Instructions Per Second (MIPS) rating.

ASSUMPTION: All PEs under the same Machine have the same MIPS rating.
